## OBJECTIVE

---

Dedicated Software Developer with a strong foundation in data and Front-End development, coupled with proficiency in React. Eager to leverage my expertise in creating visually appealing and user-friendly interfaces that seamlessly integrate data-driven functionalities. Committed to staying at the forefront of emerging technologies and using best practices in web development to deliver dynamic and responsive user experiences. Seeking an opportunity to contribute my skills and passion for crafting exceptional front-end solutions within a collaborative and innovative team environment.

## WORK EXPERIENCE

---

### Summit Machine Tool

*Front-End Developer*

**Oklahoma City, OK**

*Dec 2020 – Jan 2023*

- Proficient in both front-end and back-end development, with a comprehensive skill set encompassing a wide range of technologies, including but not limited to React, Node.js, Next.js, Jest, Python.
- Developed and maintained responsive web applications using React, ensuring seamless user experiences across various devices and screen sizes.
- Adept at problem-solving, debugging, and optimizing code for performance and scalability, resulting in streamlined operations and improved user experiences.
- Perform testing on web pages, analyze user feedback, and coordinate with cross-functional teams to identify opportunities to enhance web page responsiveness.
- Utilized React components, state management, and hooks to streamline application logic and enhance code reusability, resulting in reduced development.
- Successfully managed website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility.
- Implemented asynchronous operations and handled API requests to enhance real-time data interactions.

### CAPP/USA

*Data Specialist*

**Remote**

*Feb 2023 – Present*

- Collaborate with senior data experts to develop and maintain scalable data pipelines and ETL workflows.
- Troubleshoot and debug data issues, identify root causes, and implement solutions to address them.
- Work with various data sources to perform data cleansing, transformation, and validation to ensure data quality and integrity.
- Assist in the design and implementation of data models and database schema to support analytics and reporting needs.
- Monitor and maintain data infrastructure, including databases, servers, and storage, and ensure optimal performance and uptime.

## CERTIFICATION

---

Meta Front-End Developer Professional Certificate

[Authentication of Certificate](#)

## EDUCATION

---

**University of Oklahoma**

*BA in Economics*

**Norman, OK**

*May 2021*

## SKILLS

---

**Tech Stack:** JavaScript (ReactJS, NodeJS, Next.js, Jest), Java, HTML, CSS (Tailwind, Bootstrap), Python, SQL, Git, Unix, Visual Studio Code, Git/GitHub, RESTful API's, Firebase, MongoDB, Figma, Photoshop, Illustrator, UX/UI.
