OBJECTIVE

Dedicated Front-End Developer with a strong foundation in data and front-end development, coupled with proficiency in React. Eager to leverage my expertise in creating visually appealing and user-friendly interfaces that seamlessly integrate data-driven functionalities. Committed to staying at the forefront of emerging technologies and best practices in web development to deliver dynamic and responsive user experiences. Seeking an opportunity to contribute my skills and passion for crafting exceptional front-end solutions within a collaborative and innovative team environment.

WORK EXPERIENCE

Summit Machine Tool   **Oklahoma City, OK**
Junior Front-End Developer/Email Developer   *Mar 2021 – Feb 2022*

- Developed and maintained responsive web applications using React, ensuring seamless user experiences across various devices and screen sizes.
- Utilized React components, state management, and hooks to streamline application logic and enhance code reusability, resulting in reduced development.
- Successfully managed website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility.
- Designed and implemented responsive layouts to ensure seamless functionality and visual appeal across various devices and screen sizes.
- Implemented asynchronous operations and handled API requests to enhance real-time data interactions.

CAPP/USA   **Remote**
Data Specialist   *Feb 2023 – Present*

- Collaborate with senior data experts to develop and maintain scalable data pipelines and ETL workflows.
- Troubleshoot and debug data issues, identify root causes, and implement solutions to address them.
- Work with various data sources to perform data cleansing, transformation, and validation to ensure data quality and integrity.
- Assist in the design and implementation of data models and database schema to support analytics and reporting needs.
- Monitor and maintain data infrastructure, including databases, servers, and storage, and ensure optimal performance and uptime.

Summit Machine Tool   **Oklahoma City, OK**
Data Analyst   *Feb 2022 – Jan 2023*

- Collect, clean, and transform data from various sources, ensuring data quality and integrity.
- Conduct exploratory data analysis and create descriptive statistics to identify trends, patterns, and insights that drive business decisions.
- Wrote Python scripts to automate data processing and analysis tasks, improving data quality and efficiency.
- Participate in data-driven projects, perform ad-hoc analysis, and provide recommendations based on findings to improve business processes and outcomes.

CERTIFCATION

Meta Front-End Developer   Authentication of Certificate

EDUCATION

University of Oklahoma   **Norman, OK**
BA in Economics   *Graduation Date: Expected May 2024*
